## SUGGEST COKE AS CANDIDATE FOR DELEGATE

Oahu Senator May Enter Race as Democrat, is Rumor From "Other Side"

For delegate: James L. Coke, Lincoln L. McCandless.

These names may appear on the Democratic ballots at the primary if reports which made their appearance today are authentic.

Coke's name has been mentioned as a possible candidate for the delegate-ship, a well-known Bourbon told the Star-Bulletin today. The Star-Bulletin's informant is one of the "other side" in Democratic politics. It is doubtful, however, whether he will enter the race, it was added. The name of McCandless has also been mentioned.

A meeting of the central committee has been called by Chairman M. C. Pecheo for July 31 to organize and formulate the platform for the coming election. As to any proposed planks, nothing definite has as yet been settled upon, as the central committee will take that matter in hand and probably appoint a sub-committee to draft the platform.

As usual, under the new rules, there will be no convention this year. The party rules provide that the central committee formulate a platform, giving it three readings. Members of the party are privileged to submit planks and obtain hearings thereon.

It was announced on good authority today that those who probably will run for the senate this year are Richard H. Trent, Prof. W. A. Bryan, and Col. Curtis P. Lauka.

## HOTTEST DAY

When the heat is in the pavement and the corn is in the sock and the "bun" is in the bunion, that's the time to see Dr. Ryan at McInerney's Shoe Store.—Adv.

## SAN DIEGO MAKES PLANS FOR BALBOA DAY OBSERVANCE

The Press of San Diego has taken up the matter of celebration of Balboa Day at the exposition and September 25 will see a banquet of all races in the big Cristobal cafe on the exposition grounds, while it is probable that there will also be a procession of the people of all Pacific races during the day.

Mrs. E. A. Wentworth, in charge of the Pan-Pacific building, writes that July 2, 3 and 4 were big days at the exposition, there being more than 45,000 paid admissions July 4, which cleaned out all literature and cards in the Hawaii section, and caused the opening up of another ton of the literature from Australia and New Zealand.

Among the callers at the Hawaii section were Mr. and Mrs. H. H. Williams of Honolulu, and C. A. Deleu, who stated that he would write and urge the Promotion Committee to send additional literature, which that body is now preparing to do, having in view a large shipment of the new folders now on the press.

## JAPANESE STUDENTS ON TOURS ABOUT HONOLULU

Teachers in Japanese schools out side of Honolulu are accompanying their pupils on study tours in Honolulu as a feature of the month's summer vacation. Seven boys and girls of the Waianae school visited Honolulu Monday and were shown about the city. Their inspection took them to the Japanese newspapers, the parks and the aquarium.

## OUTRIGGERITES TO CHOOSE NEW OFFICERS SOON

Much Interest Being Taken in Annual Meeting July 29; Notices Are Mailed

Considerable interest is being manifested by members of the Outrigger Canoe Club in the annual meeting, to be held a week from Saturday afternoon.

Circular letters reached all members of the club today notifying them of the meeting at 3 p. m. July 29, on the Outrigger grounds. The principal business to be transacted is the election of a president, vice-president, secretary, treasurer, captain, house committee chairman, order and entertainment committee chairman and two directors.

The annual meeting notice sent out by Secretary J. Ashman Beaven states that the board of directors has appointed a nominating committee, consisting of G. H. Buttolph, L. C. Thompson, A. J. Porter and A. E. Bixby, to submit the names of candidates for the various offices.

Attention of members is invited to the section of bylaws providing that no member whose dues for the current fiscal year have not been paid shall vote at any meeting of the club.

"The successful operation of the club," says the secretary's notice to members, "depends almost entirely upon the men whom you elect to manage its affairs and it is essential that you take an active and thoughtful interest in this annual meeting. The nominating committee will be glad to have you suggest the names of members whom you would like to see nominated and elected. Or, better still, offer your own services if you feel that you can do something to benefit the club and its members."

"While junior members are not entitled to vote, the board would like to see them all present, and would like to hear them express their views and ideas on any matters for the good of junior or any other department of the club."

## QUEEN-MOTHER'S HEART SORROWED FOR KITCHENER

LONDON, England.—Perhaps none outside his immediate family was more grief-stricken at the news of Lord Kitchener's tragic death than Queen Alexandra. The attentiveness of the soldier to the Queen-Mother had long been notable, and there was a very strong bond of sympathy between these two, undoubtedly two of the loneliest figures prominent in contemporary London.

Indeed, there was something pathetic in the lonely bachelorhood of the war secretary, who occasionally to his intimates dropped remarks bearing on his lack of home and near relations. Not a week passed during the war in which he has not paid a visit to Marlborough house, where he would remain for long visits with Queen Alexandra and come away with a long list of those combatants of whom her friends had made special inquiries. However pressing the demands of the campaigns on the various fronts, he would always return within a few days with the desired information.

Lord Kitchener had promised to be the Queen-Mother's guest during the coming summer at Sandringham. He constantly had ladies to lunch at his seat in Kent, Broome hall, near Canterbury, on Sundays, and would show them how he was developing his gardens and dilate to them on the beauties of his china. Younger women were conspicuous by their absence at these times, the guests being chiefly peeresses and experts on gardening as well as the wives of men who had served under him in various campaigns.

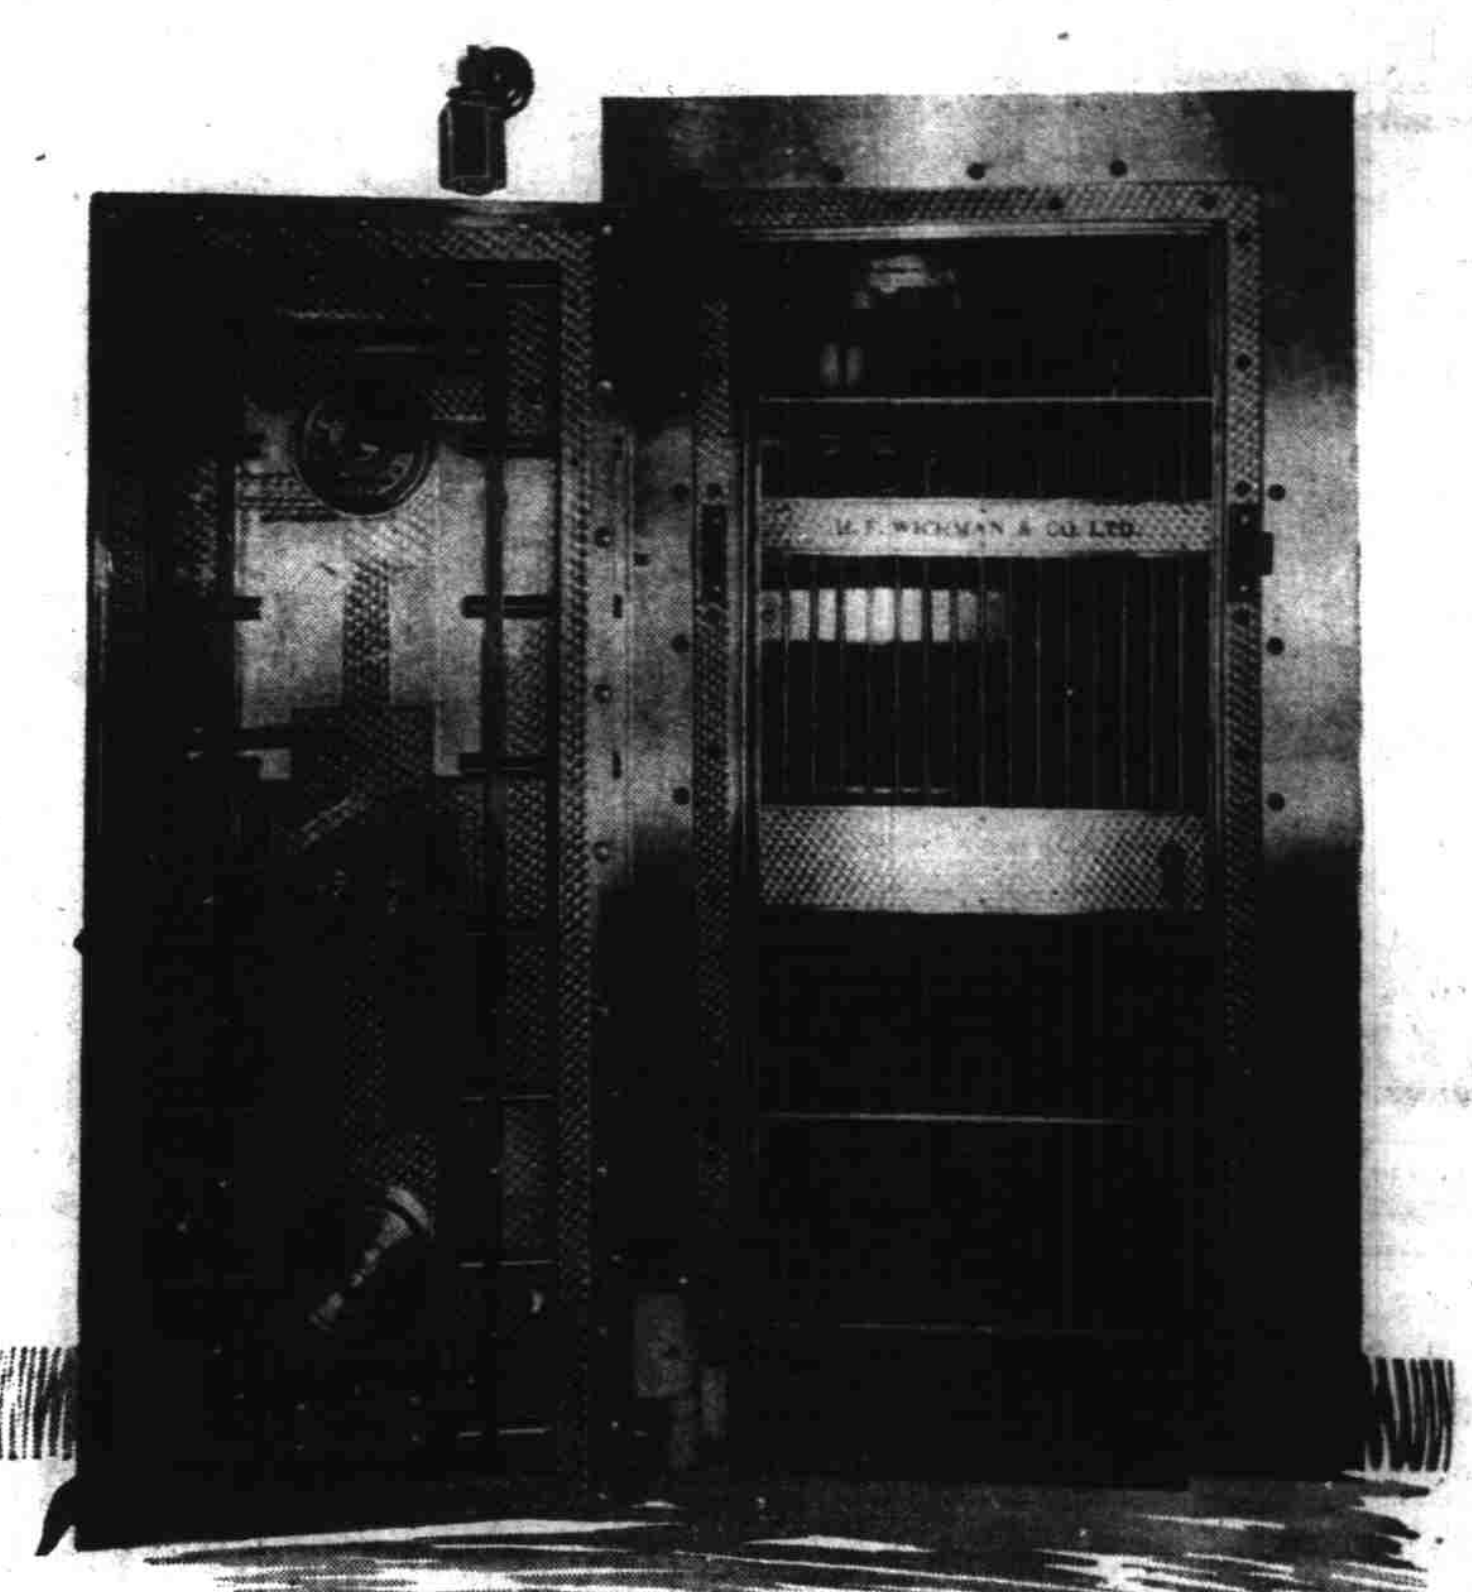

At York house, St. James' palace, he gave a number of dinner parties to men only, the military element being not always conspicuous at these. He liked doctors, though cared nothing for actors or musicians. Several of the higher clergy in London enjoyed his friendship and hospitality.

Lord Kitchener was personally well known to the owners of many of the more expensive curiosity shops in London. He would bargain over purchases, but did not possess the commercial sense, and in the end would always pay a good price, usually on his own initiative. The dealer generally received a check the day after delivery, the check being quite often post-dated a month or two.

### DIVORCE IN CUBA

HAVANA.—Among important pieces of legislation now engaging the attention of the Cuban Congress are bills legalizing divorce and giving to married women the control of their own property. It appears questionable whether there is any very strong demand for the passage of the former law and it is said that many of the best Cuban women are opposed to the institution of divorce as being contrary to the tenets of their religion and repugnant to the traditions of Cuban society. The other bill has strong feminine support but it is felt that owing to absorption of interest in the coming Presidential campaign, neither measure has much chance of passage during the present session of Congress.

## F. D. LOWREY IS NAMED TO HEAD HARVARD CLUB

Interesting Talks of Life at University Given at Annual Dinner of Society

With the attendance of 39 persons, forming the biggest affair ever held by the Honolulu organization, the annual banquet of the Harvard Club was held at the University Club Monday evening.

The following officers were elected to serve during the coming year: F. D. Lowrey, president; Cyril F. Damon, secretary-treasurer. Executive committee—Dr. A. L. Dean, A. L. Castle and James D. Dole. Students' aid committee—Dr. W. T. Brigham, A. L. Dean, J. P. Morgan, A. M. Nowell.

Among the speakers was Prof. A. M. Toxer of Harvard University, son-in-law of G. P. Castle, who gave an interesting talk on conditions at Harvard. Vernon Tenney told of the freshman dormitory. The first expedi-

tion of Hiram Bingham to Peru was related by H. L. Tucker, who accompanied the expedition as an engineer. Athletics at Harvard were summed up in a talk by Lothrop Withington. A musical program added to the success of the affair.

## GEISHA GIRLS WILL HONOR MEMORY OF ONE OF THEIR FAVORITES

Japanese geisha girls of Honolulu will give a big benefit program at the Asahi theater on Maunakea street three evenings of this week in memory of the late Fukuryu, a Hawaiian-born Japanese girl, who won fame throughout the islands for her beauty. There will be performances on Thursday, Friday and Saturday evenings.

More than 30 of the geishas are devoting their time at present to rehearsals on the Asahi stage for the program which promises to excel any given in the city for some time. The benefit is being looked forward to with interest by the Japanese people and a large number of haoles are expected to be present.

At the time of her death Fukuryu was 19 years old, but was considered one of the most talented members of the geisha girl colony. She received all of her education in Hawaii. There are rumors among the Japanese that Fukuryu died of a broken heart caused by a love affair with one of the young Japanese of the city. She

was popular with the geisha girls and at a meeting it was decided to give the performance in her memory.

## ENGLAND ORDERS MILLION SACKS FROM JAPAN FOR USE IN TRENCH WARFARE

Reports received from Japan state that there are many of the Japanese goods which in peaceful times brought little money are now valued by the nations at war. Japanese kamassu, sacks made with woven rice straw, are no exception to the rule.

The sacks were commonly used by farmers for carrier purposes, and no one dreamed that they would become an element of modern warfare, and Japanese people were surprised when 1,000,000 of these sacks were ordered by the British government. The English war authorities have discovered that the straw sacks filled with sand are invaluable as a protection for the men in the trenches. Sack makers in Japan are working night and day to fill the orders.
